Introduction

The *NCUA Quarterly U.S. Map Review* for the second quarter of 2021 covers several key indicators of the financial health and viability of federally insured credit unions, including:¹

- Median four-quarter growth in assets,
- Median four-quarter growth in shares and deposits,
- Median four-quarter growth in members,
- Median four-quarter growth in loans,
- Median delinquent loans as a share of total loans,
- Median loans outstanding as a share of total shares and deposits,
- Median year-to-date return on average assets, and
- Share of federally insured credit unions with positive year-to-date net income.

Four-quarter growth is the growth from the end of the second quarter of 2020 through the second quarter of 2021. Most maps shown in this review display medians, or the 50th percentile of the distribution of the variable. In other words, for a given metric, half of all credit unions had a value at or above the median, while the other half had a value that was less than or equal to the median.²

Data presented in this review are rounded. Unless otherwise noted, indicators in percentages are rounded to the nearest tenth of a percentage point, while indicators in basis points are rounded to the nearest basis point. In the legends, the data range in each color band excludes the value of the lower bound but includes the value of the upper bound of the range. Credit unions are included in their states of chartering or the states in which their headquarters are located.

NCUA makes information about the financial performance of federally insured credit unions available through its online [Research a Credit Union tool](#). Through this link, you can locate information contained in an individual credit union’s Call Report as well as obtain a Financial Performance Report and summary documents about a credit union’s performance.

For comments or suggestions about the *NCUA Quarterly U.S. Map Review*, please send an email to ocemail@ncua.gov.

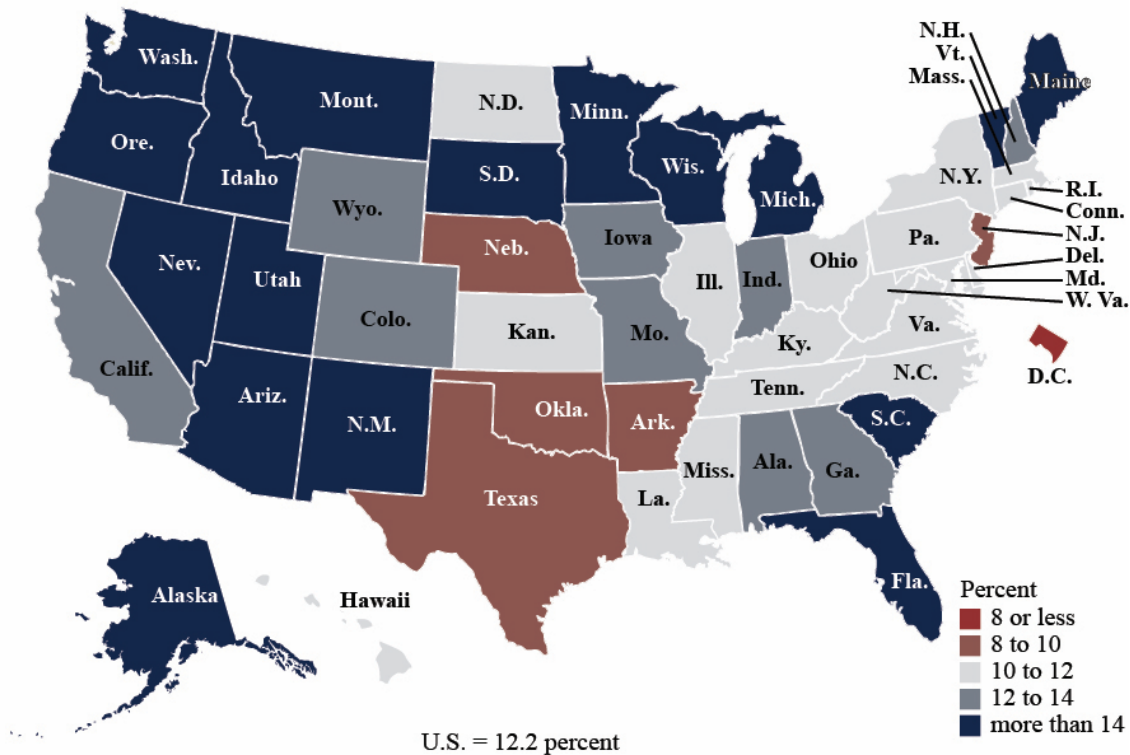

¹ Overseas territories—Guam, Puerto Rico and the Virgin Islands—are included in the summary indicators tables but are not represented on the maps or in the text.

² Technically, by construction of the median, there can be several credit unions “tied” at the median value.

Median Annual Share and Deposit Growth

Median Annual Share and Deposit Growth

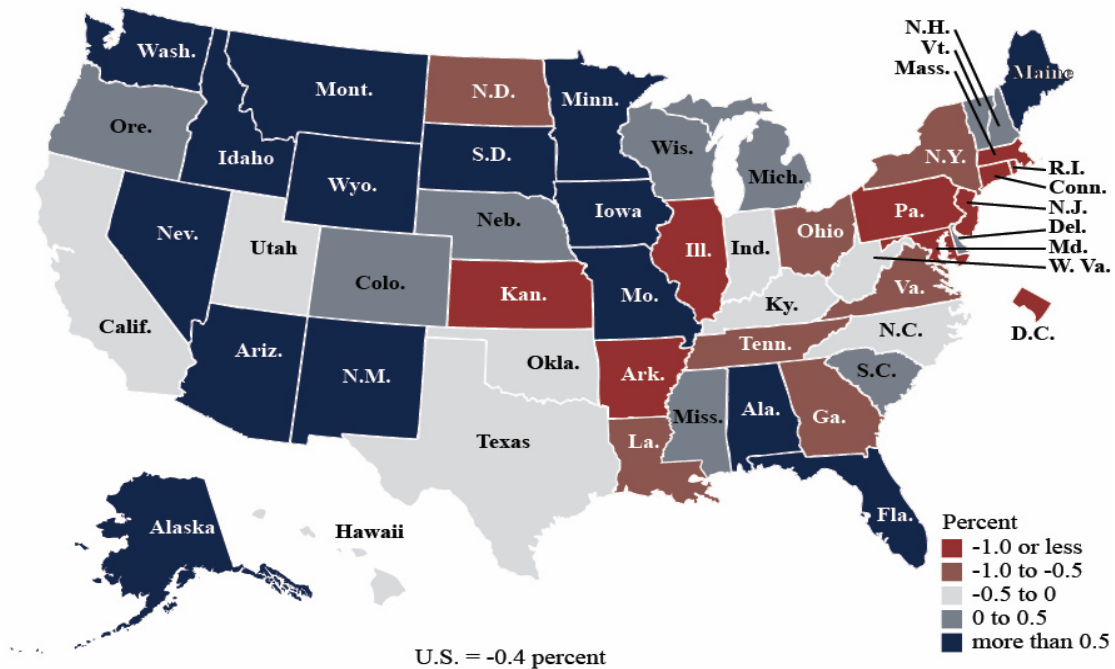

Highlights

- Nationally, median growth in shares and deposits over the year ending in the second quarter of 2021 was 12.2 percent. In the year ending in the second quarter of 2020, the median growth rate in shares and deposits was 11.1 percent.
- Over the year ending in the second quarter of 2021, median growth in shares and deposits was highest in Idaho (19.7 percent), followed by Nevada and Oregon (both 19.1 percent).
- At the median, shares and deposits grew the least in Washington, D.C. (7.4 percent) and New Jersey (8.2 percent).

Median Annual Membership Growth

Median Annual Membership Growth

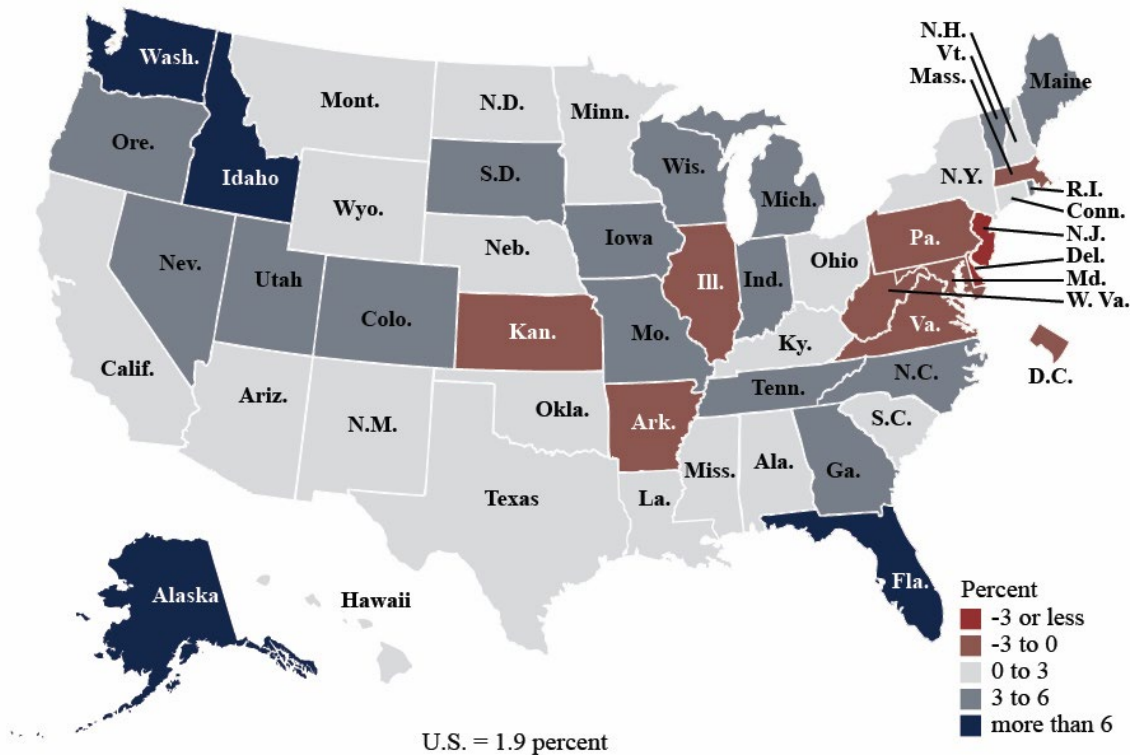

Highlights

- While overall membership in federally insured credit unions continued to grow during the year ending in the second quarter of 2021, at the median, membership declined 0.4 percent. Membership declined 0.3 at the median during the preceding year (over the year ending in the second quarter of 2020). Overall, about 55 percent of federally insured credit unions had fewer members at the end of the second quarter of 2021 than a year earlier. Credit unions with falling membership tend to be small; 65 percent had less than \$50 million in assets.
- Over the year ending in the second quarter of 2021, credit unions headquartered in Alaska (4.5 percent) and Idaho (3.9 percent) posted the highest median membership growth rates.
- In 24 states and Washington, D.C., the median membership growth rate for federally insured credit unions was negative. At the median, membership declined the most in New Jersey (-2.0 percent) and Pennsylvania (-1.7 percent), and was unchanged in Utah.

Median Annual Loan Growth

Median Annual Loan Growth

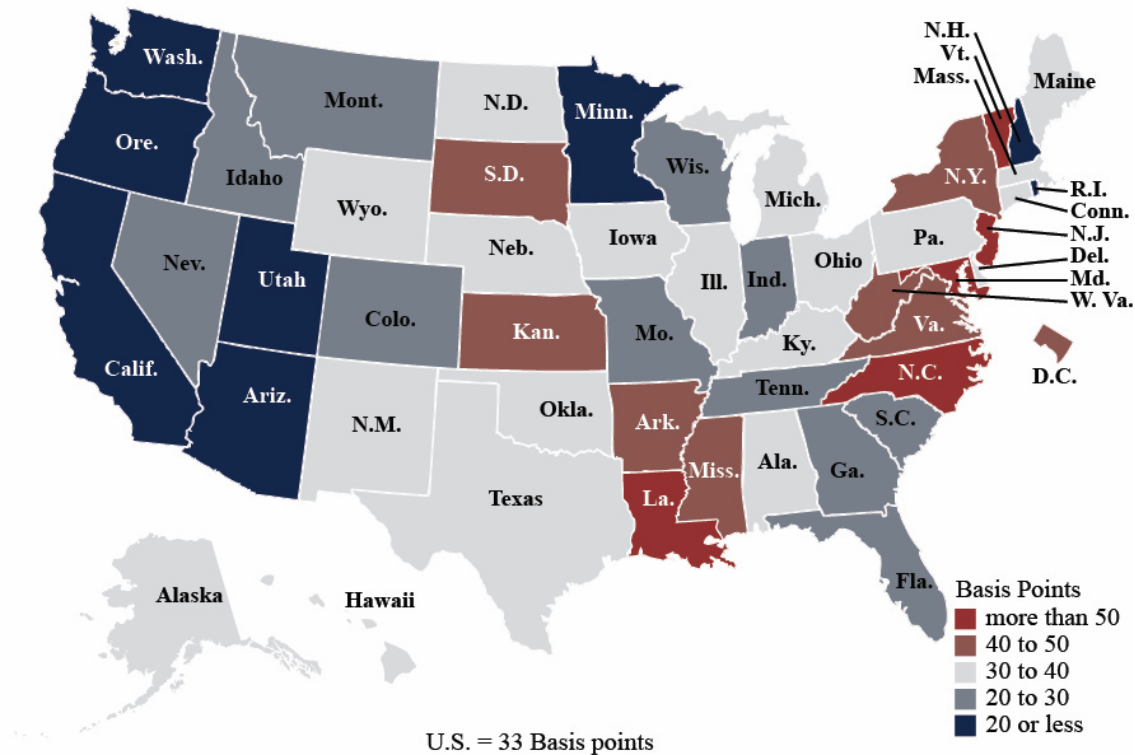

Highlights

- Nationally, loans outstanding rose 1.9 percent at the median over the year ending in the second quarter of 2021. During the previous year, loans grew by 0.2 percent at the median.
- Over the year ending in the second quarter of 2021, median loan growth was strongest in Idaho (9.5 percent) and Alaska (7.0 percent).
- In nine states and Washington, D.C., the median loan growth rate for federally insured credit unions was negative. At the median, loans outstanding declined the most in New Jersey (-4.3 percent) and Delaware (-3.7 percent).

Median Total Delinquency Rate

Median Total Delinquency Rate

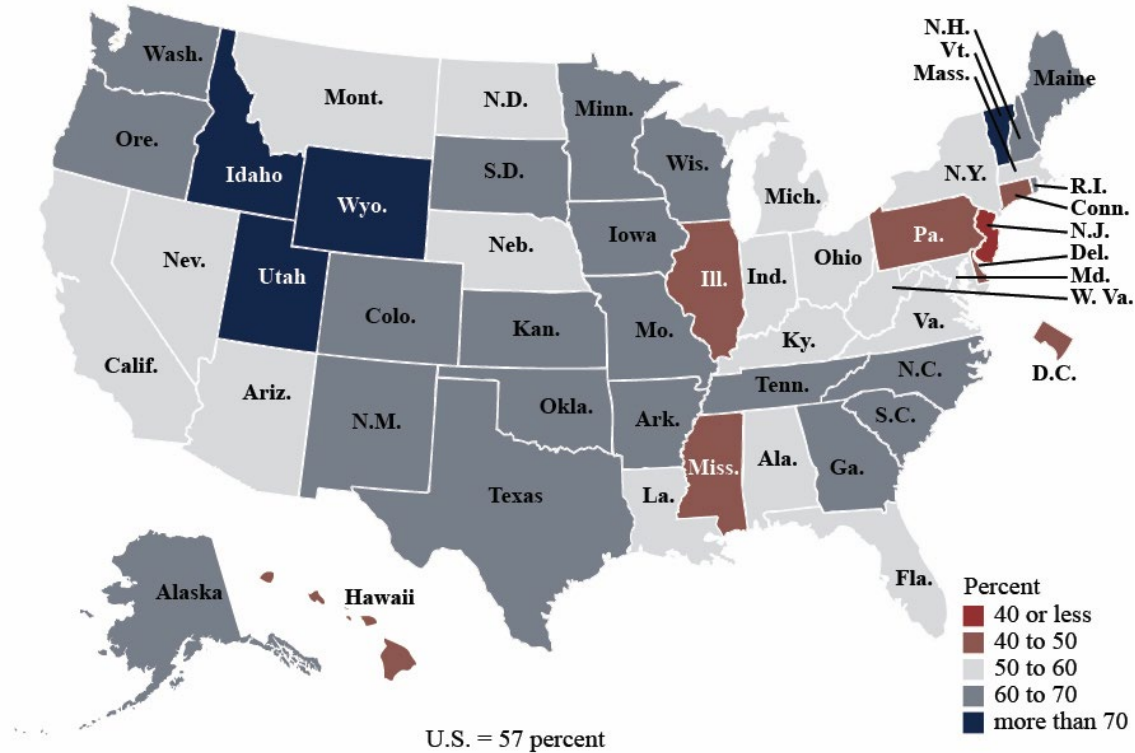

Highlights

- At the end of the second quarter of 2021, the median total delinquency rate among federally insured credit unions was 33 basis points, compared with 52 basis points in the second quarter of 2020.
- At the end of the second quarter of 2021, the median delinquency rate was highest in New Jersey (88 basis points) and North Carolina (63 basis points).
- The median delinquency rate was lowest in Utah (14 basis points), followed by New Hampshire, Oregon, and Rhode Island (all 15 basis points).

Median Loan-to-Share Ratio

Median Loan-to-Share Ratio

Highlights³

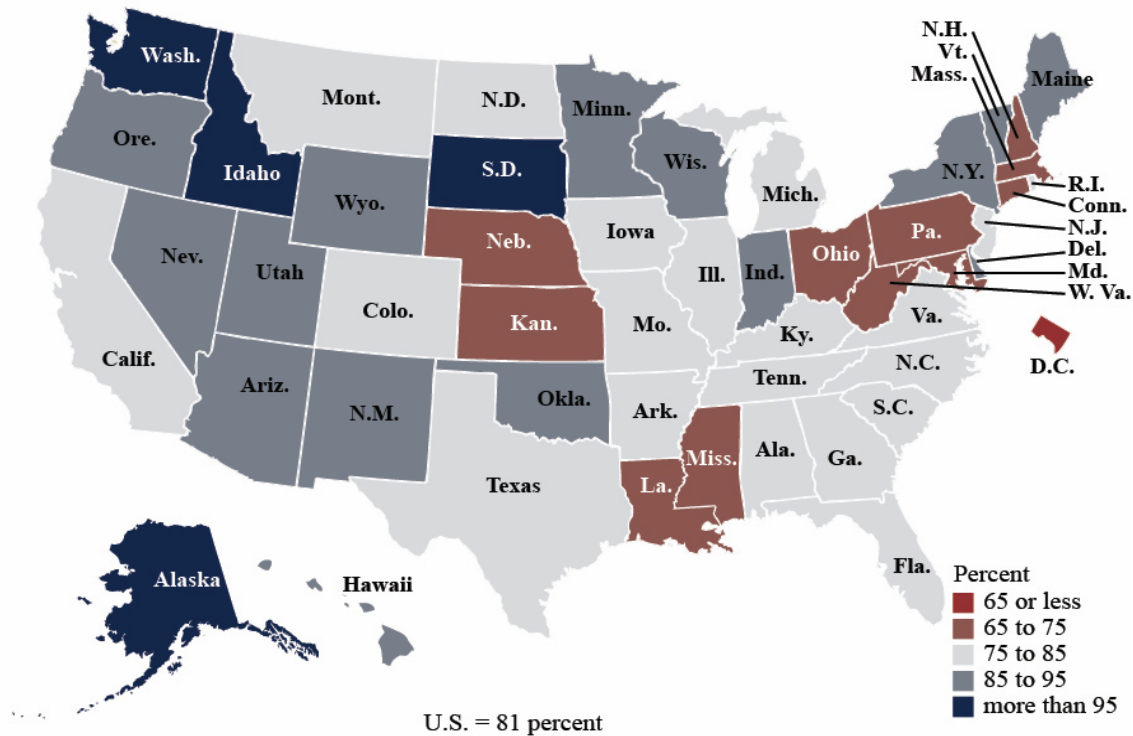

- Nationally, the median ratio of total loans outstanding to total shares and deposits (the loan-to-share ratio) was 57 percent at the end of the second quarter of 2021. At the end of the second quarter of 2020, the median loan-to-share ratio was 63 percent.
- The median loan-to-share ratio was highest in Idaho (75 percent) and Vermont (73 percent).
- The median loan-to-share ratio was lowest in New Jersey (38 percent), followed by Connecticut, Delaware, Hawaii, and Pennsylvania (all 43 percent).

³ Loan-to-share ratios are rounded to the nearest percentage point.

Share of Credit Unions with Positive Net Income

Share of Credit Unions with Positive Net Income

Highlights⁴

- Nationally, 81 percent of federally insured credit unions had positive net income in the first half of 2021, compared with 80 percent in the first half of 2020.
- At least 60 percent of credit unions in every state and Washington, D.C. had positive net income in the first half of 2021.
- The share of federally insured credit unions with positive net income was highest in Alaska (100 percent) and Washington (98 percent).
- The share was lowest in Washington, D.C. (61 percent) and Nebraska (67 percent).

⁴ Share growth rates on this page are rounded to the nearest percentage point.
