Dear Ms Rupp,

This letter is in reference to the services we use thru Missouri Corporate Credit Union. We are a small credit union and the ability of share draft processing, wire, western union services, ACH processing and Investment processing is a great asset to us. If we were unable to access these services thru Missouri Corporate Credit Union it would be a great disadvantage to us. Each of these services are very important to our members and the ability to do them thru Missouri Corporate Credit Union gives our membership the security of knowing we have a system that gives them the most secure process they can get at a very reasonable cost. If these services were unavailable through the Missouri Corporate Credit Union it would cost our credit union a great expense in time, money and manpower and possibly be the demise of our existance. During these most difficult economic times we need a system that works and gives our staff as well as our members the best process it can give.

I sincerely hope that we will be able to continue our great relationship with Missouri Corporate Credit Union.

Sincerely,

Anita Bross
Operations Manager
