• Ensuring a safe and sound credit union system.
• Providing a regulatory framework that is transparent, efficient, and improves consumer access.
• Maximizing organizational performance to enable mission success.

The NCUA is the independent federal agency created by the U.S. Congress to regulate, charter and supervise federal credit unions. With the backing of the full faith and credit of the United States, The NCUA operates and manages the National Credit Union Share Insurance Fund, insuring the deposits of account holders in all federal credit unions and the overwhelming majority of state-chartered credit unions. At MyCreditUnion.gov, the NCUA also educates the public on consumer protection and financial literacy issues.

“Protecting credit unions and the consumers who own them through effective regulation.”
